RED SPIES IN GOVERNMENT

The ghosts of dead traitors have thrown Washington politicians into a dither since Attorney General Herbert Brownell charged Harry Truman with knowingly promoting the Russian-born Jew spy, Harry Dexter White (Kovelsky). Hundreds of pages have been written for the entertainment of the naive citizens who do not understand that

Harry Dexter White (Kovelsky) was member of the Invisible Government that causes fear in Washington.

at the top directing the important movements of the Democratic and Republican parties, the real unpublicized directors are the powerful leaders of the Invisible Government. These men who pose as Democrats or Republicans to suit the situation are: Bernard Baruch, the Warburgs of Kuhn, Loeb & Co., Lehman Bros., Felix Frankfurter, Henry Morgenthau, Sidney J. Weinberg.

As shown by many written statements of Jewish authors, Jews are a nation within a nation and only use political parties insofar as they are useful in helping self-styled Jews to control the government. That Judaism is a world-wide conspiracy to enslave non-Jews can be easily and definitely proven. COMMON SENSE has in its library enough uncontestable evidence to engage a reader for two months.

Harry Dexter White is reported to have committed suicide on a farm near Fitzwilliam, N. H., on August 16, 1948 and buried the next morning, this just three days after he was exposed publicly as a spy. Some informed people believe it is quite possible this was a hoax and that White is alive. The Invisible Government had forced F. D. R. to appoint Henry Morgenthau as Secretary of the Treasury and who in turn had arranged for White as Assistant Secretary of the Treasury with Harold Glasser just under White. Hence three Jews had complete charge of the Treasury when Major George Racey Jordan was ordered to load plates for printing our money on a plane in Washington. Major Jordan says that this plane, along with three loads of the Treasury's secret ink and four plane loads of secret paper were flown to Alaska and turned over to the Communists to take to the Soviet Union. Communist soldiers in East Germany who had not been paid for two years were paid with this money, it was naturally redeemed by the USA (United Saps of America).

Jews Defy U N & Get U.S. \$

The English General, Morgan, who had charge of UNRA in Europe, under Herbert Lehman, made public that Polish Jews with their pockets stuffed with this money were coming into Germany demanding to be sent to the U. S. This explains why main streets in our best cities are owned mainly by Jewish immigrants. For this exposure, General Morgan was promptly fired by Herbert Lehman, the leading Marxist Jew, head of UNRA which used two billion dollars of the taxpayers' money to set up Tito and other Communist movements in Europe, while trusting Americans were told this money was for hungry people. Mr. Fred Smith, New York public relations man, says that it was White, the Communist-Jew spy who originated the Morgenthau starvation plan for Germany and Mr. Smith is quoted in newspapers November 14th and 15th, 1953, as stating he was with Henry Morgenthau and White when they met with Eisenhower in a tent in England on August 7, 1944. At this meeting these representatives of the Jewish people gave Eisenhower his orders to starve the German people and destroy their factories and make a "goat pasture" out of Germany. In this tent in England Eisenhower met with White, a proven traitor, and Morgen-

To All Council Members:

In order to obtain as clear a picture as possible of the issues in the present crisis between the United States and the State of Israel it is important that you keep in mind the following sequence of events since the spring of this year.

MAY. Secretary of State John Foster Dulles, accompanied by Mutual Security Director Harold E. Stassen, makes a tour of the Middle East, including Israel, a mission undertaken in an effort to see what can be done to restore United States prestige in the area.

JUNE 1. Dulles announces, in a nationwide broadcast, that United States policy toward the Middle East will henceforth seek to reflect "impartiality" as among the nations of the area. He speaks of the Arab fear of "expansionist Zionism". The Council approves the Dulles statement. Israeli and Zionist spokesmen express uneasiness over what it portends.

AUG. 11. Adlai E. Stevenson, in an article of "Look" Magazine entitled "No Peace for Israel" expresses views similar to those of Mr. Dulles.

SEPT. 23. Major General Vagn Bennike, Chief of Staff, United Nations Truce Supervision Organization, requests Israel to order stoppage of the hydro-electric project in the demilitarized zone between Israel and Syria.

OCT. 13. Israel offers to suspend work temporarily. The U. N. indicates that there is little likelihood of such an offer being accepted since the U. N. order to suspend the work contained no qualifications. Tel Aviv newspapers report Washington is withholding the first payment of Foreign Operations Administration funds because of Israel's attitude. Jordan authorities cooperate with UN

thau, whom investigators are yet afraid to prove and there the Morgenthau Plan was born. At this time Germany was using every ounce of energy to prevent Communism from breaking out of the Soviet Union and engulfing Europe. There in the tent were spokesmen for world Jewry demanding that Eisenhower stop Germany from defeating Communism. Now Eisenhower says he never met White (Kovelsky). Eisenhower carried out Jewish orders to break down Germany. Now that the matchless German army is destroyed, Germany laid in ruins and Europe helpless, Eisenhower asks the German people to help him prepare for another war purporting to be a war against Communism, while he protects and coddles in Washington the same people who prevented Germany from wiping out Communism. This is to be a war against the Russian People—not Communism. Just as we were told in World War II, it was a war against Hitler but proved to be a war to ruin the German race. Had the United States kept out of Europe, Communism would have been completely exterminated. Germany came within an inch of saving the world from slavery.

Elizabeth Bentley and Whittaker Chambers, former Communists, had identified White as a

WHY GERMANY FORGES AHEAD

Written in Berlin by Merwin K. Hart, President of National Economic Council Inc., and Published From Council Letter 322

A retired British General, who has seen a good deal of the world told me a few weeks ago in London that recently he remarked to some German workers that with increased food supply and better conditions they should be fairly content. When they disagreed, saying they needed more and better food he asked them why.

"Because then we could work harder," they said

Shortly afterwards, he observed to some British workers that, with most foods now unrationed and with improvement in conditions, they should be better satisfied. When they challenged his statement, he asked what they would do if further improvement took place.

"We wouldn't have to work so hard," they replied

These differing views rather epitomize the attitudes of a large part of the people in the respective countries. And several Englishmen to whom I repeated the story agreed.

Both Germany And Britain Lost the War

Germany was overwhelmed militarily, suffered frightful losses in men and property, still has several million of her citizens as virtual slaves in Soviet Russia. About a third of her territory was handed over (with the consent of the American government) to Soviet Russia, and the 18 million Germans in that occupied territory are now likewise slaves.

Yet the West Germans, after all their sacrifice, retain the will to live and to make their country great again. And they retain the willingness to make almost any sacrifice to survive.

On the other hand, Britain, one of the supposed victors in World War II, shows considerable deterioration since the War. Churchill and the Conservatives took it for granted they would win the election of 1945. Churchill did not realize, during the War years, that the Labor Party leaders, inspired by the Fabians (the authors of British Socialism) were sowing the seed of a Socialist victory at the war's end.

Churchill had said, toward the end of his Government, that he did not become the King's first minister in order to preside over the dissolution of the British Empire. But Attlee, his successor, scholar and sincere man though he is, proceeded to do exactly that—all with idealistic motives.

And, in addition, the Labor Government, heavily financed at Truman's dictate by American taxpayers, began an attack on private enterprise which led to the socialization of an important part of Britain's industry. Years of propaganda by the Fabians has softened the fiber of the British workingman.

In a generation or two the average worker has been changed from a sturdy, self-reliant individual, trusting mostly in himself to make his living, to a dependent, looking to the State for much of his support. Many times libertarian speakers have appealed to groups of British workers to realize they are losing their liberty—only to receive the grinning reply, "I couldn't care less!"

There's nothing new about all this—everybody knows it. But I repeat it as a prelude to the statement that most (by no means all) of the well-to-do middle classes in Britain years ago largely abdicated the responsibilities that go with citizenship.

THE FABIANS

Soon after the Labor Government came in, representatives of the Fabian Society approached a large association of businessmen of widely diversified interests—with a view to extending the socialization of business. It then developed that more than 70 per cent of the members of this association had never even heard of the Fabians! Yet, these Fabians had brought about an industrial and social revolution, and were actually in control of the British Empire! These businessmen (and we have their counterpart in the United States) hadn't bothered to keep informed about so vital a matter as their own liberty.

So, while Germany lost the war, and Britain was supposed to be one of the victors, yet Britain's net losses may prove to have been greater

over the years than Germany's. For Britain has lost most of her Empire, and there are signs she has so far lost the stamina and will to recover.

SOCIALISM AND COMMUNISM

Britain's Fabian Socialism has been more or less allied with Communism. The Socialism of Bevan and even Attlee has been the Marxist type. In 1937, as we have mentioned before, Attlee went to Spain and was photographed in the act of giving the Communist clenched fist salute with a British unit of the International Brigade, which had been set up by Soviet Russia to defeat Franco.

So, we're not too surprised to find some of the British Labor leaders working rather closely with Communism. But even the Churchill government seems not to differ too much from the Labor people on the subject of Communism. Britain is deeply infiltrated. MacLean and Burgess, two government officials who suddenly disappeared some two years ago (almost certainly behind the Iron Curtain) had held high positions in the British Government. One of them, endorsed by Britain, had spent some time in America where he had access to the topmost secrets.

Moreover, the scientist Pontecorvo, who apparently knew all that Britain knew about the H-bomb, was likewise permitted to disappear, and is now unquestionably directing Russia's development of this weapon.

When, some years ago the Russian, Gouzenko, walked out of the Soviet Legation in Ottawa with their secrets and turned them over to the Canadian Government, that Government immediately set up a Royal Commission of its own to investigate. This Commission, in the fine tradition of Royal Commissions in Britain, delved thoroughly into the entire field. It produced evidence not only of a great Soviet conspiracy in Canada but also in the United States. Yet, when the Canadian Prime Minister turned over pertinent parts of the evidence to President Truman, the latter ignored it.

If Truman had given earnest attention to this evidence, China would probably not now be under the control of the Soviets, the Korean War would never have taken place, and Russia would not now have the H-bomb.

The American Government has clearly learned a good deal of the truth since then. But, the Conservative Government of Britain seems to have learned less. Several thinking Britishers told me they have strongly urged their Government to appoint a Royal Commission to investigate Communism. One man close to the Prime Minister told me that under no circumstances will Churchill act on that suggestion. Apparently interests that exercise powerful influence over him will not permit it. Probably, too many men of influence would be shown to have tolerated Communism, if knowingly or unknowingly, they have not actually promoted it.

LABOR PARTY NOW LESS SOCIALISTIC

Britain changes slowly, a trait with advantages and disadvantages. At the recent Labor Party conference at Margate, even that Party seemed to have realized at last, that the nationalization of industry has had evil results, for Bevan's left-wing proposals were rejected. This received great publicity in the British press.

Churchill has so far changed only moderately the socialistic institutions set up between 1945 and 1950, though his address on October 11 before the Conservative Party Conference, likewise at Margate, strongly emphasized the importance of private enterprise. And we Americans should rejoice in the promptness with which Britain landed in British Guiana and ousted the radical Prime Minister before his Communist followers could do more damage.

LIBERTY HAS ALWAYS BEEN THREATENED

The London Times of August 11, 1846 (not 1946) said in an editorial with reference to then current threats to the liberty of the individual:

"The greatest tyranny has the smallest beginnings. From precedents overlooked, from remonstrances despised, from grievances treated with ridicule, from powerless men oppressed with impunity, and overbearing men tolerated with complacency, springs the tyrannical usage which generations of wise and good men may hereafter perceive and lament and resist in vain.

"At present, common minds no more see a crushing tyranny in a trivial unfairness or a ludicrous indignity, than the eye uninformed by reason can discern the oak in the acorn, or the utter desolation of winter in the first autumnal fall.

"Hence the necessity of denouncing with unwearied and even troublesome perseverance a single act of oppression. Let it alone and it stands on record. The country has allowed it and when it at last provoked to a late indignation it finds itself gagged with the record of its own ill compulsion."

The British Agriculture Act of 1947 provided that whenever bureaucrats should decide that any farmer was not farming with the efficiency they thought he ought to show, he could be forcibly dispossessed. And, many farmers have been thrown out of properties they and their ancestors have tilled for centuries—a far cry from the British tradition that "a man's house is his castle."

RED SPIES IN U. S. GOVERNMENT

(Continued from Page 1)

Communist spy. Newspapers during the first half of November carried definite proof that Truman and Eisenhower received written reports from the F. B. I. on Dec. 4, 1945, establishing that White was a Communist spy. Truman later, on January 23, 1946, promoted White to U. S. Director of International Monetary Funds and after White resigned wrote White that the President was much pleased with his services and would call on him again because his abilities made him particularly able to help. Truman had no other choice—the Invisible Government gave him his orders.

On November 10, 1953, Truman was the guest speaker at a dinner in New York given by the American Jewish Congress (which caused their Vice-President Rabbi Prinz to sue COMMON SENSE). Truman was given a plaque after he had praised Rabbi Stephen Wise, the founder of the A. J. C., a Marxist group of Zionist Jews. Ben Gitlow for ten years a top man in the Communist party told the Un-American Activities Committee lately that Rabbi Wise followed the Communist line and was very helpful to the Communists. On November 12th Truman was guest speaker at the Yeshiva Jewish University in New York, where he received honors for giving hundreds of millions of dollars of the taxpayers' money to Israel.

Do the Jews have something on Truman which forces him to kowtow to them? Truman was an associate of the Prendergast gang in Kansas City and while the President flew in the plane "Sacred Cow" to Tom Prendergast's funeral after his death in the penitentiary. The New York News of November 13th shows Truman with his head close to Samuel Rosenman, who advised Truman in evading his responsibility for protecting White, the traitor. Rosenman wrote speeches for F. D. R. and Truman while they were Presidents.

The Invisible Government now orders Eisenhower the Republican (?) to protect Truman the Democrat (?) and squash the investigation of White.

Why do the Congressional committees concentrate on White, a dead man; Why not go after Henry Morgenthau? Are we to believe Harry White, a Jewish school teacher, just applied for a job and was chosen as Assistant Secretary of the largest Treasury in the world, and later appointed the Director of International Monetary Fund just because he was the only man who could fill the job? Just as Anna Rosenberg was the only person qualified to run the Defense Department, and Lewis Strauss the only man qualified to have charge of Atomic Energy?

Any informed person knows White could not serve in that capacity one day unless placed there by the Invisible Government—the Warburgs of Kuhn, Loeb & Co., Lehman Bros., Bernard Baruch, Felix Frankfurter. They placed White in the Treasury Department and David Niles (Nilus) in the White House for years to protect White and see that F. D. R. and Truman were duped while Communism ran wild in Washington. These two Jews were placed there just as Leon Keyserling was placed under Truman as Economic Adviser, and now the Jew, Arthur Burns, as Economic Adviser under Eisenhower.

Why all this mystery about Harry Dexter White? It is very simple. He was just one of thousands of Jew spies during Roosevelt-Truman and now the Eisenhower administrations. The Atomic Bomb spies were all Jews and 99 1/2 of all the spies the U. S. has encountered have been Jews. Jewish organizations are forcing prominent men to appear and receive plaques at public dinners to make a smoke screen and prevent people from realizing Marxism is Jewish.

On November 23rd Eisenhower and others must be the puppets at a dinner in Washington given by the Anti-Defamation League (Jewish Gestapo). More smoke in the people's eyes.

The following comes from Victor Marsden, Russian correspondent of the London Morning Post: "At present (1918) all Bolshevik Commissars are Jews. All the agitation for the 'glorious Revolution' both in 1905 and 1917 was worked out by Jews. The Jews have stripped Russia bare of all portable property . . ."

The American Hebrew stated (Sept. 10, 1920): "What Jewish idealism and Jewish discontent have so powerfully contributed to accomplish in Russia, the same historic qualities of the Jewish mind and heart are tending to promote in other countries. . . ."

to apprehend criminals believed responsible for killing three Israelis.

OCT. 14. Dr. Israel Goldstein, president of the American Jewish Congress charges that the Syrian protest against construction of the Huleh Canal is "sheer obstructionism."

OCT. 15. Sixty-six Jordanians are killed, 16 injured the previous night and scores of buildings are blown up when a force of Israel's regular army attacks three villages near the armistice lines with shells, grenades, automatic weapons, torpedoes and dynamite. Major-General Bennike rejects Israel's offer to halt work temporarily on the hydro-electric project to facilitate clarification of disputed points. The General insists on his earlier request for a stoppage until an arrangement is made with Syria, the complaining party.

OCT. 16. Britain, the United States and France accuse Israel of endangering Middle Eastern peace by its attack on the Jordan villages. Syria asks the UN to take up her complaint that Israel's diversion of waters from the Jordan River for a planned canal and water-power project violates the 1949 armistice agreement and is a threat to peace in the Middle East. The Foreign ministers of the U. S., Britain and France agree to put the Israel-Jordan border incident before the Security Council of the UN.

OCT. 18. The U. S. calls for punishment of Israeli forces which attacked the Jordanian villages, expresses shock at the raid and deepest sympathy for the families of those who lost their lives in and near Kibya.

OCT. 19. The American Council for Judaism in a letter to Mr. Dulles, supports the U. S. action as most likely to insure peace and stability in the Middle East.

OCT. 20. The report is confirmed that the United States notifies Israel it will withhold financial aid until the Israeli government stops trying to divert waters of the Jordan River along the Syrian border. Ben-Gurion denies the Kibya raid was carried out by Israeli regulars. He says it was done by "inhabitants of frontier settlements who had been armed and trained by the Government to defend their homes." UN Security Council summons Major General Vagn Bennike for a first-hand account of the tensions between Israel and her Arab neighbors. American Zionist Council declares withholding of U. S. is "an act of unwarranted duress."

OCT. 21. A United Press story from Tel Aviv reveals that members of the Israeli Cabinet voted to support Premier David Ben-Gurion's defiance of a UN decision even though members knew it would mean a suspension of American economic aid.

OCT. 29. Dr. Berger is advised by a most reliable Washington source, that the anticipated Zionist inspired pressures are mounting at a tremendous rate.

As it became clear that the United States intended to support the UN on the question of the Israeli-Jordan situation, the Israeli press and government leaders, as was unquestionably their prerogative, proceeded to protest vigorously. In this country American citizens, both Zionists and so-called "non-Zionists" embarked upon a campaign to pressure the United States to reconsider its decision to withhold aid to Israel until Israel should agree to comply with UN request. They did so presumably despite their awareness that the United States action had been taken, in the interests of justice and in accordance with the very policy of "impartiality" which had been laid down by John Foster Dulles and supported, at least in principle, by the titular head of the opposition party.

MORE SPIES IN WASHINGTON

(Comment by Common Sense: Mentioned in this article Nathan Witt, John Abt, Julius J. Joseph, and Victor Perlo, are Jews.)

Washington — Procedures for administering the National Labor Relations Act are "essentially the same" today as when they were established, the Senate Internal Security Subcommittee was told by Nathan Witt, an attorney and secretary of the Labor Relations Board during the formative years of the nation's labor policy.

Under these procedures, the NLRB holds that it is unable to deny bargaining rights to any labor union, so long as its officers sign the non-Communist oath required by the Taft-Hartley Act and the union is otherwise qualified.

Witt and Edwin S. Smith, members of the Board in those early years, have been described to the subcommittee in sworn testimony as the dominant elements in this agency during their terms of service. Both refused to tell the subcommittee whether they were Communists while in Government employ.

Senator William E. Jenner (R., Ind.), subcommittee chairman, made Witt's testimony available today for public distribution. Smith had testified earlier.

Witt, in his testimony, minimized the part he and Smith played in shaping the legislation and procedure.

"It was the Congress that set up this machinery and not Nathan Witt or anybody else," he declared.

Senator Jenner, however, commented that the Act, as passed by Congress, provided for a wide area of administrative choice, over which the Board and staff had the decisive power.

Board members also told the subcommittee that they do not have authority to establish the truth or falsity of the non-Communist declaration. However, more recently, the NLRB chairman announced that if any union official is formally indicted, the request of his union for a collective bargaining election will be deferred until a determination of his case by the courts.

Witt told the subcommittee he is counsel for the International Union of Mine, Mill and Smelter Workers, whose president, secretary and several other officers refused, at an earlier hearing, to deny that they are Communists. He also said he "wouldn't be surprised" to find that he had filed a brief in behalf of the American Communications Association, several of whose officers also have refused while under oath to answer the subcommittee's questions regarding their Communist affiliations.

The volume released today also contains the testimony of John Abt, who, among other federal assignments, was counsel for the Civil Liberties Subcommittee of the Senate Committee on Labor and Education, and Julius J. Joseph, whose federal service included a period with the War Manpower Commission. All three were witnesses in the subcommittee's investigation of Interlocking Subversion in Government Departments.

"The testimony of these three men as to their relationships with the Communist Party is shocking," Senator Jenner declared.

Witt wrote a letter in 1940 to Representative Howard W. Smith (D., Va.), then chairman of the House Labor Committee, denying that he was a member of the Communist Party. In accepting Government appointments, Abt swore to support and defend the Constitution against all enemies. Joseph testified before the subcommittee that he never, to his knowledge, was a member of an organization dedicated to the overthrow of this Government by force and violence.

"Yet each of these three, when under oath, refused to answer the question whether he was a member of the Communist Party, on the ground that to answer would tend to incriminate him.

"Furthermore, Abt claimed the Constitutional privilege to refuse to answer, because of possible self-incrimination on all questions about his participation in a Soviet espionage plot with Elizabeth Bentley and Victor Perlo. Joseph, while he made a show of denying that he had ever engaged in espionage, refused to answer, under the Fifth Amendment protection against self-incrimination, whether he had ever furnished classified Government information to Miss Bentley, a former Soviet agent who has testified about her part in the espionage plot.

RED HIGHLIGHTS

Harry (the front-man) Truman is in the headlines again and this time we guess that he wished he had been fishing when the Harry Dexter White case came up. Harry Dexter White, the "Jew" spy, and David Niles (born Neyhus), "Jew", White House Advisor for F. D. R. and Harry, along with thousands of "Jew" spies have been working in the government for years. What is everybody getting so excited about all of a sudden. COMMON SENSE told its readers 3 years ago about this set up. Incidentally, Harry, who received the Hebrew University Bulbick Award for 1953, is to speak before at least three "Jewish" organizations during November and December of this year. The groups that will hear him at elaborate dinner functions are, the Friends of the Hebrew University, The American Jewish Congress, and the American Committee of the Weizmann Institute. These groups like to hear their Harry make such remarks as he did at a recent dinner given by the American Jewish Congress. We quote: "Fear of Communism is being manipulated by a few so as to cause a wave of hysteria." Good boy, you served the "Chosen People" well Harry . . . This is a hot one, and remember that a "Jew" is behind it. Representative Louis G. Heller (D., N. Y.) will introduce a bill at the next session of Congress making it obligatory for every adult to donate at least one pint of blood to the American Red Cross.

* * * * *

A casual investigation into the labor unions will prove that the majority of executive positions are held by "Jews". The latest example of this is the much publicized milk strike. The union representative for the Milk Drivers Union of New York and vicinity is Samuel Cohen, "Jew" . . . The government has announced that it is going to build the world's first atom power plant, and guess who is going to be in charge as Chief of the new project? Hyman G. Rickover. "Jew" . . . The new U. S. Solicitor General recommended to take Phillip Perlman's place is another "Jew" Simon Sobeloff. . . . Governor Dewey's legal counsel is George Shapiro, "Jew". . . . Henry Epstein, "Jew", former N. Y. State Solicitor General, was retained by Robert Wagner to institute suit against Governor Dewey. . . . Senator Lehman, back from a trip to Europe presented a blistering attack on "McCarthyism and McCarranism" and urged community efforts to bring information to the people so they may understand the grave issues facing the nation and may act accordingly to defeat the demagogues" (Patriots).

* * * * *

According to inside information from within the ranks of the "Jewish" Gestapo the State Department had to make a strong good will gesture towards the Arabs before opening up our supply of finance to the Israelis. In other words the State Department, which is controlled by the "Jews", put on a floor show for the Arab nations who the "Jews" intend to push into the Indian ocean. Evidence of this fact is the latest World "Jewish" meeting in Jerusalem where 150 "Jewish" leaders met, more than 100 of whom were from the United States. This group visualizes the population of Israel reaching 2,000,000 "Jews" by 1960 and proposes reducing the foreign exchange gap by increasing exports and decreasing imports. They also propose to continue decreasing Christians and Arabs while they increase the "Jewish" population to 2,000,000

* * * * *

According to the news reports, both Eisenhower and Truman lied regarding their association with the "Jewish" spy Harry Dexter White . . . Cincinnati and seven other cities recently have voted against fluoridation.

WHO OWNS THE JEWS? WHY GERMANY FORGES AHEAD

By HENRY H. KLEIN
(Attorney and Former Jew)

I often wondered. When Jacob H. Schiff was alive, he was known as king of the Jews. Delancey Street, New York City, was known as Schiff Parkway. The functioning of the United Hebrew Charities in New York City was credited to Schiff's generosity. When Schiff died in 1931, the Warburgs stepped into his shoes. Felix and Paul are dead, but their sons, James P. and Edward, are alive and running the banking firm of Kuhn, Loeb and Company.

Who owns the Jews? The question is pertinent because Jews are credited with controlling the United States and most of the world. Do Jews control or do only a handful control? Not one Jew in a thousand knows what the handful is doing, but they are all held responsible. Jews have been bulldozed into accepting what their self-imposed leaders are doing.

What are their leaders doing? They are trying to conquer the world. During 20 years of Roosevelt and Truman and now of Eisenhower, Jewish leaders have controlled the White House and Congress, through Frankfurter and Baruch. The Warburgs, Lehmanns and a few others control in finance and the American Jewish Congress and American Jewish Committee control in world affairs. Many agencies work with them.

Judaism is a lucrative racket though largely displaced by Zionism. Not one Jew in a hundred knows that Zionism is a political program for the fulfillment of the protocol plan for world conquest through world destruction, as explained by Waldo Frank in the Contemporary Jewish Record of February, 1944. Through Zionism and Judaism, self-constituted leaders have collected hundreds of millions of dollars.

What have they done with the money? Did they buy control of large industries. Did they buy control of newspapers, magazines, movies, radio and television? Is that why pro-Zionists and pro-Communists get favorable publicity? Is that why we are afflicted with hypocrisy, humbug and lying? Is that why the state of society is upside down? Is that why we had two world wars, a collapse in Wall Street and a war in Korea and elsewhere in Asia? Is that why civilization is dying?

It is time to end the war with God.

"In other words, these men were quite willing to make a general denial, for which they could not be indicted but on any specific question about espionage or other association with Elizabeth Bentley, they invoked the Fifth Amendment which protects witnesses against any answers which might incriminate them.

"Yet, such men were permitted to serve in responsible and highly paid federal posts for a number of years."

Abt was chief of the litigation section of the Agricultural Adjustment Administration, later assistant to the Attorney General in the anti-trust division. He refused on the ground of self-incrimination, to say whether he was a member of a Communist cell when he was in AAA or whether he met with Elizabeth Bentley, Victor Perlo and other federal workers in his home to make arrangements for supplying confidential information to Miss Bentley, who was then head of a Soviet espionage ring in Washington. He refused to say whether he knew either Miss Bentley or Perlo.

Joseph's first federal employment was as an economist with the National Resources Planning Board in the executive offices of the President. He invoked the Fifth Amendment on all questions as to Communist affiliations then or during the remainder of his federal employment.

He went from the Planning Board to the Federal Security Agency, thence to the War Relocation Commission and, in 1943, was inducted into the Army.

After only a few weeks of active service, Joseph was assigned to the Office of Strategic Services, wartime intelligence service of the United States. Elizabeth Bentley testified that "someone pulled strings" and got him into the "hush-hush" Japanese division of that agency where "in addition to things on Japan he offered information on what they were doing about Russian activities."

Joseph said he had read of that testimony but had made no reply to it.

"Why should she pick you out of all the people in this country to testify about?" Chairman Jenner asked.

"I don't know," Joseph replied. He later declared, "I want you and this committee and anyone else to understand this, that I have never engaged in espionage."

Nevertheless, when Counsel Morris asked Joseph if he had ever transmitted secret material to Miss Bentley, the witness invoked the privilege of refusing to answer where the answer involved possible self-incrimination.

The Churchill Government appears to have done little to change this vicious provision. About two years ago, a group of farmers, under the leadership of Sir Waldron Smithers, M. P., an old personal friend of mine, formed the Farmers and Smallholders Association (offices at 24, Austin Friars, London E.C.2), to take up the cudgels on behalf of any farmer threatened with dispossession or other serious difficulties. Already the movement has achieved some success.

SOME IMPROVEMENT IN BRITAIN

There are some signs of improvement in Britain—the changing attitude of the Labor Party is one. But Britain's situation seems rather desperate, largely because so little incentive remains.

Three courses seem open to Britain:

- (1) To continue in relative stagnation.
- (2) To transfer 20 million of her population to her colonies or dominions, since she apparently cannot produce food for more than three-fifths of her present 50 million.
- (3) Or go back to work—meaning by that, to work as hard as their neighbors, the Germans, seem willing to work.

The first course will be easiest and most dangerous. The second will be difficult, partly because Britain has no money to pay the cost, but mostly because so many British have come to lean on the State, rather than on their own effort and resourcefulness—and to like it. The pioneer spirit is largely gone.

The third course would be the hardest of all, for it involves undoing most of the evil philosophy of Fabian Socialism.

GERMANY SCORES A RECORD

Probably history does not record a more rapid recovery than that of West Germany in the past eight years. In 1945, most of her cities had been bombed. Hamburg, Berlin, Stuttgart, Dresden, Frankfurt, Dusseldorf, Wurzburg and many others being from 50 to 80 per cent destroyed. Germany was bankrupt. Her military losses had been overwhelming. Several million Germans were in the hands of her late enemies. About two-fifths of her entire area, containing 18 million Germans and much of her best agricultural land, was under the heel of Soviet Russia, which was already murdering many of her men or sending them to Siberia, and raping her women and girls.

In addition, vicious influences in the United States forced the utterly unlawful "War Crimes Trials," and began the dreary and vengeful "de-Nazification" proceedings, under which multitudes who had no sympathy with Hitler but had had to fight and work for Germany, were put through a long series of humiliations, together with those who were guilty.

Yet Germany is staging an amazing recovery. Tremendous rebuilding has been accomplished since my last visit in 1950. Though hit materially and in morale far harder than Britain, she has recovered much faster. She has determined to rally, no matter what the cost in personal sacrifice to her people. And her people gladly acquiesce.

On this visit I have had unusual opportunity to talk with Germans, for I have spoken at group meetings in such cities as Bad Driburg, Hamburg, Frankfurt, Stuttgart and Berlin, and have spent some hours in questioning men and women and in trying to answer their questions. Occasional resentment appears, but most Germans like America and most Americans. They feel they have more in common with us than with any other people. They praise America for the material aid our Government and people have given them.

THE REFUGEES

I spent some hours in the refugee camps immediately this side of the Iron Curtain in Berlin.

Some 600 to 1,000 wretched men, women and children stream across the line into the allied sectors of Berlin each day. I saw them as they came and entered the registration camp. They owned only what they could carry in their hands. They ranged from infants to persons past 90. The registration camp, where they were carefully screened, keeps them a day or two and passes them on to temporary camps, of which there are 20 in the Berlin area, where they remain from four to eight weeks. Then those found satisfactory are sent to more permanent camps in Bavaria and jobs are solicited for them.

There are 200,000 "unacknowledged" refugees in camps in Berlin. These are people who have been screened by officials and no real need found for their flight to the Western sector. There are so many "acknowledged" refugees that those "unacknowledged" have no foreseeable future and live a totally separate life.

I talked with many of the active leaders in this great rehabilitation work. Their work is the truest kind of welfare. Practically all of them have themselves been in Russian concentration camps.

These leaders, men and women who are dedicating their lives to this Christian work, include Superintendent Ahme, Gerhard Gant, Frau von Scherstaedt, Dr. Vorwerk and Dr. Hilde Reinartz.

SENATOR MCCARTHY

Nearly everyone I have met in Germany has asked about McCarthy and McCarthyism. The propaganda from America, and from the Paris Herald Tribune and the international edition of The New York Times have painted him just about as the New York Daily Worker has done.

Many Germans have been brought to believe McCarthy is similar to Hitler—I have heard the comparison several times. A Frankfurt newspaper, I am told, stated last winter McCarthy is the "greatest menace in the world today." A few informed Germans tell me they detect in this anti-McCarthy propaganda an attempt to stir up anti-American feeling in Germany.

When I have told audiences that McCarthy is a man of integrity, is one of the most important men in the Senate, and has been perhaps the most powerful campaigner in Senatorial elections, I have detected incredulity, if not total disagreement. Fortunately, at every meeting here have been one or two Germans who have been in America and know the facts, and who confirmed what I said.

THE PRESENT GERMAN GOVERNMENT

Lastly, word about the German Government itself. Germans have been fortunate in having Adenauer as their leader. A devout Catholic himself, his integrity, wisdom and statesmanship have been such as to attract the support of millions of Protestants.

Second only to Adenauer have been Erhart, Minister of Economics, Schaefer, Minister of Finance, and Ehlers, President of the Bundestag. The leadership of these men and the loyalty of their followers have been such that, at the September elections, the Adenauer party (the C.D.U., or Christian Democrats) won an absolute majority in the Bundestag, the Parliament of West Germany. Thus, in the land where Socialism first attained power three-quarters of a century ago, Socialism has now been heavily defeated.

So, Britain lags behind because even her conservative leaders have given the people little relief from Socialism. Germany goes bounding ahead, clearly because Socialism has become largely discredited and cast aside.

All of which both Britain and America will do well to ponder.

HOW MANY JEWS IN AMERICA?

It is a well known fact that among the ancients known as "Jews" today, it was the LEGAL custom to only include in a census MALES OVER THE AGE OF 21 YEARS. Females were NEVER included in the census taken among the tribes referred to today as the "Jews" of that period in Bible history.

The custom described above has become more circumscribed today by self-styled "Jews" throughout the world. Briefly, as can best be ascertained from what appears in print, and what can be read between the lines of what appears in print, the census of self-styled "Jews" in the United States today enumerates ONLY THE HEADS OF FAMILIES.

In this recently published list the number of these self-styled "Jews" are listed as "5,000,000". It must be apparent that there is something false about this recent figure of "5,000,000" for today's population of self-styled "Jews" in the United States because the OFFICIAL FIGURE GIVEN TO THE WORLD ALMANAC FOR 1936 BY THE AMERICAN JEWISH COMMITTEE AND THE SYNAGOGUE COUNCIL OF AMERICA GIVES THE UNITED STATES CENSUS AS ALMOST 5,000,000 FOR THAT YEAR.

It is our opinion, based on study and observation, that today, and for many years and probably centuries, it has been the custom among the self-styled "Jews" living in, and coming from eastern Europe to list ONLY THE HEADS OF FAMILIES WHO ARE REGISTERED WITH A SYNAGOGUE AS A MEMBER OF THAT CONGREGATION IN THE "OFFICIAL" FIGURES GIVEN TO THE PUBLIC FOR THE CENSUS OF MEMBERS OF THAT ALLEGED RELIGIOUS FAITH.

Thus the figure of "5,000,000" is probably the number of HEADS OF FAMILIES, and not the total population as included in the figures of the Christian denominations. Even the figure of "5,000,000" is only a round number without any "official" substantiation.

The approximate actual census of all members of all families included among so-called self-styled "Jews" would total no less than 12,000,000-15,000,000 if noses were counted in the U. S. In manipulating the population figures the Jews are trying to cover up for those they claim were killed in Germany and are now in the United States.
